Terry M. Hoffman, CPP (#9669), CBCP (#4384)

Mr. Hoffman is a security threat risk analyst, business impact and emergency preparedness expert and one of only three hundred and forty people in all of Canada who have achieved the standard of Certified Protection Professional (CPP). This select group of professionals has demonstrated competency in the area of protecting people, property and information assets with best-business practices through an intensive qualification and testing program. In addition, Mr. Hoffman is certified by Disaster Recovery International (D.R.I.) as an internationally recognized “Certified Business Continuity Professional” (C.B.C.P.). Mr. Hoffman possesses a postgraduate diploma from Georgian College, with honors, in the study of the new millennium type of crime “Cyberspace Security and Internet Law”. Mr. Hoffman has also achieved certification in Crime Prevention through Environmental Design (CPTED) from Peel Regional Police and has completed the John E. Reid and Associates “Reid Technique of Interviewing and Interrogation” course.

Since September 11, 2001, Mr. Hoffman has been involved in developing and implementing a three-stage “Assets Protection Plan” for Canada Border Services Agency at over thirty-five United States of America International traffic and commercial border crossings from British Columbia to New Brunswick.

In addition, he has been busy providing security management services to Honda Canada, Newfoundland Labrador Hydro, Telus, Vancouver International Airport, Ivanhoe Cambridge, Greater Toronto Transit Authority, the Ontario Ministry of the Environment, the Ministry of Finance, the Ministry of Health, Attorney General, Immigration Canada, SNC Lavalin Profac, Ontario Realty Corporation, the Ministry of Government Services, Research in Motion, the Salvation Army, Simcoe, York Region, North Bay and Toronto Public School Boards, the University of Guelph, Humber College, Peel Regional and Barrie City Police Services and a number of other provincial and municipal government agencies, educational institutions and police organizations.

Mr. Hoffman has been published several times in the Canadian Security Magazine as an expert in Security Management practices and in Mitchell & Partners educational forums on fraud, theft and abuse in the workplace. He has also been a presenter on telecommunication security practices at the Schooley Mitchell Telecom Consultants annual conference in Mexico in 2001 and 2002 and acted as both judge and presenter at Security Canada, CANASA forum on Closed Circuit T.V. technology in 2000, 2002 and 2006 respectively.

Mr. Hoffman has over 20 years experience in the security management industry and over 14 years experience in project managing security audits and Threat Risk Assessments. With multiple training certificates in electronic security design on a variety of numerous access control and Closed Circuit TV systems, he not only brings an operational experience to the table but is also unique in his ability to understand technical systems and how they should be utilized best to meet the operational objective.
